I appreciate your willingness to share this information with me. I also appreciate how difficult it is to come forward with such information. I will share what you have sent to me with specific contacts I have in HR and the Personnel Committee in a confidential manner. I expect that representatives of these two groups will request to speak to you.

I am very sorry that this has occurred and placed you in such a difficult situation. I have complete trust in the Mayo investigative process to fully evaluate all concerns raised of a Mayo employee, particular in regard to the nature of the information that you have provided, and to take appropriate action.

I greatly appreciate your willingness and trust in me to share this information with me.

All my best,

I just want to add that I'm here if anyone wishes to speak to me. Several current/former women at Mayo (myself included) have enough concrete information to have him fired 5x over. Honestly, all Mayo would need to do is look into his email, pages, phone records, or use of Mayo funds, if they can even access any of this and are willing to deal with it head-on, [REDACTED] he has bragged that he brings in so much money that he is "untouchable". Currently we are all living in fear...we know he has been reported previously and has a history of retaliation, and we are all vulnerable due to our personal situations. I'm really putting myself out there by saying anything at all, and I'd prefer not to say anything else but to live in peace while Mayo leadership does its job. Based on everything I know, he is a huge liability to Mayo and should be let go as expeditiously as possible.
